Advanced IPL Skin Rejuvenation

Lynton's IPL skin rejuvenation laser is clinically proven to treat a range of common skin concerns unable to be treated with more traditional methods, such as; Skin pigmentation, vascular lesions, thread veins, acne, rosacea, enlarged pores, fine lines and wrinkles.

An initial consultation and patch test is required prior to any IPL treatment. A thorough explanation of the treatment will be carried out, as well as obtaining lifestyle and medical history in order to assess suitability.

An initial consultation and patch test is required prior to a laser hair removal treatment.

Consultation (redeemable)	£10.00
Full skin rejuvenation	£25.00
Small or individual area	£15.00

Advanced Laser Hair Removal IPL

The Lynton laser machine delivers quick and safe laser hair removal on all skin types. Laser hair removal provides longevity and rapid treatment times, combined with highly effective 'pain-free' hair removal.

An initial consultation and patch test is required prior to a laser hair removal treatment.

Consultation (redeemable)	£10.00
Half Leg	£30.00
Chest	£30.00
Back	£30.00
Abdomen (full)	£25.00
Stomach line	£15.00
Bikini (pant line)	£25.00
Under arm	£25.00
Neck	£25.00
Eyebrows, Lip or Chin	£15.00

Electrolysis and Advanced Electrolysis

Electrolysis and advanced electrolysis are both safe and effective procedures that use a fine sterile probe combined with heat to remove or reduce hair and a range of skin blemishes on the face and body such as; Skin tags, blood spots, thread veins and spider veins.

The hair removal service is an ongoing treatment that will require several visits to achieve your desired result. Full treatment prices will be given on consultation depending on the area.

Consultation and Electrolysis

15 min	£5.00
30 min	£10.00
45 min	£15.00
60 min	£20.00

Consultation and Advanced Electrolysis

15 min	£10.00
30 min	£20.00

Microblading

Microblading is a semi-permanent cosmetic treatment that will make your eyebrows appear thicker and fuller by depositing pigment into your brows with a small blade formed of small needles to give the effect of naturally-growing brows. After a thorough consultation, our training therapists will design a customised shape that complements your face and your personality. Results should last between 12-18 months after an initial retouch which is carried out between 6 and 8 weeks after treatment.

Microblading is an ideal solution for clients who have patchy, thin, or uneven eyebrows and are looking for the most natural looking results. However, not everyone is a candidate for microblading and there are different elements to consider such as skin condition and health. A skin test will be required 48-72 hrs prior to the service. Our training therapists will advise you on the appropriate aftercare during your appointment and you will receive an aftercare pack which is included in the cost to ensure your brows heal beautifully.

Brows	£60.00
including aftercare pack and initial retouch	
12-18 month top up	£50.00
(no aftercare pack included)
